

NO MORE EMPTY SHOES EXHIBIT MARCH 2008

The use of tobacco creates 1200 empty pairs of shoes each day in the United States! That means that 1200 people die every single day from a tobacco-related illness. Our goal is to display 1200 empty pairs of shoes to help create awareness and hope! HOPE that many people will decide to quit using tobacco or decide never to start using. HOPE that there will be *NO MORE EMPTY SHOES!*

Each pair of shoes will represent the life of a loved one who has passed away from a tobacco related illness.

We invite you to honor the memory of your loved one during this extraordinary exhibit.

If you would like to honor the memory of a loved one, please complete and return the form below along with your contribution of just \$5.00 per tribute. (Please make checks payable to: St. Lawrence County Health Initiative, Inc.)
